

# Sean Jaeger

SOFTWARE ENGINEER

## TECHNICAL SKILLS

### Strong

Data Structures & Algorithms  
Systems Design  
JavaScript & TypeScript  
Python  
React JS / Next.js with Hooks,  
Redux & Context  
Testing with Jest / Cypress  
Accessibility  
Figma

### Familiar

Ubuntu  
React Native  
Django / Django Rest  
Framework

## EDUCATION

SIR HENRY FLOYD  
GRAMMAR SCHOOL  
2017 - 2019

### A Level grades achieved:

Maths	A*
Further Maths	B
Economics	B

## EXPERIENCE

### OCTOBER 2021 -

Self-teaching Computer Science, primarily Data Structures & Algorithms (Top 4% on LeetCode), Systems Design as well as Front End technologies with Open Source contributions.

### KIMO

#### JUNE 2021 - SEPTEMBER 2021

- Developed Kimo's Expo React Native app
- Overhauled the app from version 1 to version 2, rewriting a majority of its code base with the team
- Managed three Junior Engineers, giving daily code reviews & mentorship
- Built & deployed the production app on the Google Play Store, managing the review process & legal compliance
- Assisted with hiring & interviewing mobile app developer candidates
- Worked closely with the design team, offering feedback on decisions made, from an implementation perspective

### DATAZOO

#### DECEMBER 2020 - MAY 2021 (SIX MONTH CONTRACT)

- Designed DataZoo's data inspection UI using Figma, iterating regularly with the CEO & CTO
- Built multiple views for the JupyterLab based UI, using the MVVM pattern
- Used Plotly extensively with Pandas DataFrames to create dynamic interactive graph views

### HUMAN LAMBDA

#### NOVEMBER 2019 - NOVEMBER 2020

- Worked with a team of developers creating the company's TypeScript React web app
- Made several contributions to the company's Django back end
- Worked from the inception of the start up as part of the founding team, seeing the product get designed and built from scratch
- Participated in code reviews, iterating closely with the product manager, as well as the more senior members of the team
- Contributed to significant refactors as the product was iterated upon, including completely overhauling the entire front end
- Contributed to all-hands discussions, with the topics including everything from designing the product and implementation to broader company strategy
- Received frequent mentorship from the three other members of the team in software engineering as well UI/UX best practices
