PROJECTS

PORTFOLIO WEBSITE

Skills used: Semantic HTML5, CSS3, Sass, Git/GitHub
My developer's portfolio website, built without frameworks.

GITHUB IN REACT

Skills used: Semantic HTML5, CSS3, Twitter Bootstrap 4, ES6 JavaScript, jQuery, React 16.8.6, Axios, Git/GitHub
An app designed to allow the user to search GitHub's API for GitHub users and public repos.

REACT STOCK TRACKER

Skills used: CSS3, Semantic UI React, TypeScript, React 16.8.6, Redux, Axios, Formik, Git/GitHub
An app that allows the user to add a NASDAQ stock ticker with a quantity, with that stock's value, the holding's value and various other information being displayed in response. This information automatically updates itself every 5 seconds, during NASDAQ trading hours.
